TO WHOM IT MAY CONCERN

This letter is to attest to good performance by Stars Orbit consultant and Management Development (SOC) with regards to its contract with UNICEF Iraq to conduct independent verification of projects and activities implemented with UNICEF's support in different areas of Iraq. The contract for verification covered a wide range of projects/activities including school rehabilitation, distribution of health supplies, accelerated learning project, and family reintegration project.

SOC successfully conducted the independent verification of projects and activities as required by the contract. The reports of such verifications were submitted in a timely manner and met the quality standards. The SOC team was also very responsive to any suggestions and feedback, and always willing to share and learn. The team also provided regular updates to UNICEF on the progress of work. The second lot of verification was completed in May 2009.

If you have any question about UNICEF's relationships/contract with SOC, please do not hesitate to drop an e-mail to dkaphle@unicef.org

Yours sincerely,

Deen Kaphle
Chief of Operations
UNICEF Iraq
